AMERICAN NUMISMATICS

Thomas Hall, M.D. on Connecticut Coppers

1307 THOMAS HALL, M.D. *A Descriptive List of the Coppers Issued by Authority, For The State of Connecticut, For The Year 1787*, Boston, 1892, 58 pages, text clean and fresh with no signs of foxing, rebaked in mahogany half calf retaining original brown gilt-printed sides. Fine. (1,500.00)

Davis 467. A great rarity in American numismatics, one of perhaps 20 copies printed of which half have survived to this day. Privately printed for "additions and corrections" with distribution only to his collecting friends, Hall's work was the first of several intended to cover the entire realm of Connecticut coppers. Manuscripts for the remaining years of Connecticut copper coinage (1785, 1786, and 1788, may be found in the Connecticut State Library and lay testament to Hall's original plans which never materialized. In addition, at least two copies, that in the A.N.S. and Hall's personal copy (later in the Virgil Brand Library and now in a private collection), are interleaved in anticipation of the notes that never materialized. Hall was in poor health in his later years and died in 1909, never able to complete the series. But as his interests covered more than just Connecticuts (Lincoln, Washingtonia, and other medals, 1793 cents, and most copper and bronze items), it is also possible that his interest in this area of colonials simply waned.

1787. Obverse 4.

AUCTORI CONNEC

Mr. Crosby records one die of this Obverse combined with Reverse L.

Obverse 4, *concluded*.

"Horned bust" Letters large and uniformly widely spaced. The periods nearly opposite the center of letters as in Mr. Crosby's table.

Break near center of left field; later showing a continuous horn-like projection from front of mail near throat.

Combination 4
L

For Reverse L, see page 28.

Upon a plate published by Dr. Maris, Obverse 4 is shown combined with Reverse M, and Obverse 6 with Reverse L. Dr. Maris informs me this was an error, the Reverses having been transposed.

Mr. Crosby records one die of this Obverse combined with Reverses F*, R and S.

Wreath of twelve leaves in triplets; six berries in pairs.

Obverse 15, *concluded*.

See Crosby, Plate V, No. 20.

Combinations $\begin{smallmatrix} 15 \\ F^* \end{smallmatrix}$, $\begin{smallmatrix} 15 \\ R \end{smallmatrix}$ and $\begin{smallmatrix} 15 \\ S \end{smallmatrix}$ For Reverse F*, see page 27.

For Reverse S, see page 30.

1787. Obverse 16.

AUCTORI :

CONNEC :

Mr. Crosby records four dies of this Obverse combined with Reverses L, M, N and O.

16-1. Letters large. Lower period of first colon, near hair. A, slightly distant from bust. Bottoms of R and I, close. *Second C, well on head.* Last C, low. *A curved fold of toga projects from bust near lower left corner of A.*

Combination $\begin{smallmatrix} 16-1 \\ M^1 \end{smallmatrix}$ For Reverse M¹, see page 35.

16-2. Letters large. A, distant from bust. C, clear of head. No break from left stand of A.

Combination $\begin{smallmatrix} 16-2 \\ N N \end{smallmatrix}$

For Reverse N N, see page 57.

16-3. Letters small. A, very distant from bust. Top of T, leans to left.

Combination $\begin{smallmatrix} 16-3 \\ L^1 2 \end{smallmatrix}$ For Reverse L¹, see page 35

16-4. Letters large. A, very near, or touching bust.

Combination $\begin{smallmatrix} 16-4 \\ N^1 \end{smallmatrix}$ For Reverse N¹, see page 35.

16-5. Letters large. Break from left stand of A; the same A punch was used with Obverse 8 of 1787. Lower period of first colon distant to left of hair.

Combination $\begin{smallmatrix} 16-5 \\ N^1 \end{smallmatrix}$ For Reverse N¹, see page 35.

Upon sharp specimens three feebly defined periods are shown triangularly placed between the wreath and C; being apparently accidental and showing little or no evidence of having been made with a punch. This die has been classified as an Obverse not described in Mr. Crosby's work, the above mentioned triangularly placed periods being added to the legend.

1787. Obverse 17.

See foot Note B.

Mr. Crosby records one die of this Obverse combined with Reverse G.

Hyphen to right of cross connects with C.

Combination $\begin{smallmatrix} 17 \\ G^1 3 \end{smallmatrix}$ For Reverse G¹, see page 32.

Foot Note B. The large cross, found with the legends of 1787, is composed of five periods, as shown upon Mr. Crosby's table; as usually found, two crossed shafts are shown, the fine outline of the die having been obliterated. I shall refer to this cross as in the condition usually found.

1787. Obverse 18.

AUCTORI : + + CONNEC

Mr. Crosby records one die of this Obverse combined with Reverse G.

Sharp specimens show a large period following the final C, situated almost wholly upon the end of toga.

Final C connects with end of toga. See Crosby, Plate V. No. 16.

Mr. Crosby records one die of this Obverse combined with Reverse B.

Letters large. The cross with four hyphens I have found only with this die. The shafts of the third cross are crossed at right angles (Greek cross) and not diagonally (St. Andrews) as shown upon Mr. Crosby's table. See Crosby, Plate V. No. 17.

Combinations $\begin{smallmatrix} 25 \\ B^1 \end{smallmatrix}$ and $\begin{smallmatrix} 25 \\ M^1 \end{smallmatrix}$

For Reverse B¹, see page 31.
For Reverse M¹, see page 35.

* AUCTORI : * * CONNEC : *

Mr. Crosby records one die of this Obverse combined with Reverses D, B and K.

The legend of the die under description differs a trifle from Mr. Crosby's table; the final cross having a well marked period to right, with rudimentary periods above and to left of same, which are not shown upon Mr. Crosby's legend of Obverse 26. The periods above referred to were easily effaced and are not shown upon ordinary specimens; I have therefore assumed this die to be the one referred to by Mr. Crosby, and continued its classification as such.

Letters large. R and I connect. Last cross between ends of toga.

Breaks from drapery to milling below last cross.

Mr. Crosby records six dies of this Obverse combined with Reverses F*, V, X, A and H.

32-1. First cinquefoil about half under bust. Second cinquefoil distant from first period and well to left of hair. Last cinquefoil closely spaced between period and end of toga. Lower fillet-end points at period and last cinquefoil. Lowest portions of E and C about upon the same curve.

Break connecting last cinquefoil with end of toga.

Combination $\begin{smallmatrix} 32-1 \\ X-3 \end{smallmatrix}$

For Reverse X, see page 39.

32-2. First cinquefoil nearly half under bust. Second cinquefoil near first period and distant to left of hair. Upper portion of T symmetrical, as compared with 32-5. R, high with top leaning to right. Lowest portions of E and C about upon the same curve.

Combinations $\begin{smallmatrix} 32-2 \\ V, \end{smallmatrix}$ $\begin{smallmatrix} 32-2 \\ X-1, \end{smallmatrix}$ $\begin{smallmatrix} 32-2 \\ X-2 \end{smallmatrix}$ and $\begin{smallmatrix} 32-2 \\ X-4 \end{smallmatrix}$

✻ AUCTORI : ✻

✻ CONNEC : ✻

Mr. Crosby records forty dies of this Obverse combined with Reverses L, Q, R, S, T, W, Z and H.

In varieties 1 to 20 inclusive, the upper fillet-end points at lower period of last colon.

33-1. First cinquefoil a trifle under bust and slightly high. Second cinquefoil distant to left of hair. The highest portion of second cinquefoil, below top of wreath. Third cinquefoil about equidistant between wreath and C.

Last cinquefoil above end of toga. Cinquefoils distant from colons. Upper period of first colon low; lowest portion of lower period about upon a line with the bottom of adjoining I. C, clear of head. All letters regularly spaced.

Break from milling through first C. Crescentic shaped break from milling to near top of wreath; later a break through last colon to lower fillet.

Combination 33-1
S¹-2

For Reverse S¹, see page 37.

33-2. First cinquefoil almost wholly under bust. The highest portion of second cinquefoil about upon the same curve as top of wreath. C O touch head. Second O, low. E C, close. Tops of R and I lean to right, the bottom of these letters being upon the same plane.

Combination 33-2
Z-9

For Reverse Z, see page 42.

33-3. First cinquefoil almost wholly to left of bust. Second cinquefoil near wreath and partly over hair. *Double cutting of first N.* The E apparently made with an F punch altered.

Break from milling through E.

Combination 33-3
W-1.

For Reverse W, see page 38.

Obverse 33, *continued*.

33-4. First cinquefoil slightly under bust. Second cinquefoil partly over and very near, or touching hair. Second and third cinquefoils near wreath. First colon, low. First O, low. C O, low and on head. Wide spacing between O and N.

Combinations $\begin{smallmatrix} 33-4 \\ Z-7 \end{smallmatrix}$ and $\begin{smallmatrix} 33-4 \\ Z-8 \end{smallmatrix}$

For Reverse Z, see page 41.

33-5. First cinquefoil about half under bust. Second cinquefoil high, opposite upper period of first colon and distant to left of hair. The lowest portion of last cinquefoil about level with the right extremity of toga. Colons heavy. Top of R above top of adjoining O. C O clear of head. Top of second N leans to right.

Similar to 13-13, the only appreciable difference being in the relative position of the second cinquefoil.

Combination $\begin{smallmatrix} 33-5 \\ R^1-1 \end{smallmatrix}$

For Reverse R¹, see page 36.

33-6. *Double cutting of second N.* Otherwise apparently identical with last. Breaks from milling to left edge of last cinquefoil and from milling to lower end of toga.

Combinations $\begin{smallmatrix} 33-6 \\ L^1-2 \end{smallmatrix}$ and $\begin{smallmatrix} 33-6 \\ Z-15 \end{smallmatrix}$

For Reverse L¹, see page 35.
For Reverse Z, see page 43.

33-7. First cinquefoil a trifle under bust, almost wholly to left of same. Second cinquefoil opposite upper period of first colon and distant to left of hair. Lower period of first colon about half below the bottom of adjoining I. All letters regularly spaced. Break passing obliquely through upright of T.

Combinations $\begin{smallmatrix} 33-7 \\ R^1-2, \end{smallmatrix}$ $\begin{smallmatrix} 33-7 \\ R^1-4 \end{smallmatrix}$ and $\begin{smallmatrix} 33-7 \\ Z-10 \end{smallmatrix}$

For Reverse R¹, see page 36.
For Reverse Z, see page 42.

33-8. First cinquefoil slightly under bust and a trifle high. Second cinquefoil opposite upper period of first colon and not over hair. Last cinquefoil in regular position. Cinquefoils distant from colons. Top of R leans to right. C, clear of head. E, trifle high, the top leaning to right. An irregularity in the die at right of I; possibly the I and first colon over-struck, partially effacing some previous error in lettering.

Breaks from milling to A and E.

Combinations $\begin{smallmatrix} 33-8 \\ Z-13 \end{smallmatrix}$ and $\begin{smallmatrix} 33-8 \\ Z-19 \end{smallmatrix}$

For Reverse Z, see page 5 43 & 44.

Obverse 33, *continued*

33-9. First cinquefoil low and almost entirely to left of bust. A high. Second C touches head. Second O, low and clear of head. Final C, low.

I have never met with this Obverse. It will be noticed that Mr. Crosby does not record the combination of Obverse 37 with Reverse F, which is a comparatively common variety. Obverse 35 has frequently been offered at sales, usually described as poor. I have met with many so classified, all of which proved to be dies of Obverse 37, with the first fleuron weak or obliterated by circulation. In Mr. Crosby's sale lots 1056 and 1057 were described as Obverses of 35; the latter I have had an opportunity to examine, the specimen proved to be the variety classified in this work as 37-10

Combination $\frac{15}{S}$

For Obverse 15, see page 7.

As an additional method of distinguishing the Reverses of 1787, of the same letter, I have added the affix prime to the second series of Reverses, shown upon Mr. Crosby's table; the same being the Reverses usually combined with the draped busts, from Reverse A, opposite Obverse 16, to the following Reverse S, inclusive. To the third series of Reverses, the same being the misspelt legends, I have added the affix second.

Mr. Crosby records five dies of this Reverse combined with Obverses 17, 18, 19, 21, 24, 37 and 38.

G¹⁻¹ Letters small. Top of branch near right extremity of second cross. Hyphen to right of third cross very distant from head. Hyphen to right of fourth cross near pole. Branch-hand opposite E and space between D and E. Upper periods of both colons low. Lower period of last colon fully half on shield. Liberty-pole touches date-line at a point about midway between 1 and 7. Upon sharp specimens a hyphen is shown between the shafts, at the upper right corner of the third cross ; the evidence is in favor of this hyphen being the result of injury, or break in the die, and would hardly warrant the tabulating of a new legend.

Combination 18

1787. Reverse Z.

* INDE : * * *

* ETLIB : *

Mr. Crosby records twenty-three dies of this Reverse all combined with Obverse 33.

In classifying Reverse Z, care should be taken to determine the final letter as a B, this being the only distinguishing characteristic from Reverse H², in which the final letter is an R. In some varieties the lower horizontal line of B was lightly cut and does not show upon worn specimens; in others the final letter was made with an R punch altered. No varieties are here described except from specimens with the B sufficiently well marked to show the intent.

Z-1 First cinquefoil near foot of Liberty. Last cinquefoil high and close on colon. *Second, third, and fourth cinquefoils nearly equidistant.* Upper periods of both colons low. Lower period of last colon near, but clear of, shield. Periods of last colon close. N, in regular position. Top of T, nearer to top of L than to top of E. Line connecting right corners of first E. Lower portion of B, narrow. Top leaf of branch points at right edge of, terminating slightly below, third cinquefoil. Date-line defective over first 7, curved over last 7. 8 touches line. Last 7, low.

Combinations $\begin{matrix} 33-11 \\ Z-1 \end{matrix}$ $\begin{matrix} 33-19 \\ Z-1 \end{matrix}$ $\begin{matrix} 33-29 \\ Z-1 \end{matrix}$ $\begin{matrix} 33-36 \\ Z-1 \end{matrix}$ 49 $\begin{matrix} \\ Z-1 \end{matrix}$ For Obverse 33, see pages 14, 15, 17 and 18.
For Obverse 49, see page 25.

Z-2 First cinquefoil high and spaced nearer to foot of Liberty than to I. Second and last cinquefoils near colons. *Spacing between third and fourth cinquefoils very perceptibly wider than between the second and third.* Upper periods of both colons low. Lower period of last colon near shield. Top leaf points at right edge of third cinquefoil. Leaves distant from colon. Letters in INDE comparatively closely spaced. Bottom of letters LIB, close. All figures below date-line. Date-line continuous, not broken.

Z-3 First cinquefoil high and spaced nearer to foot of Liberty than to I. Second and last cinquefoils near colons and about regularly placed opposite both periods. *Spacing between third and fourth cinquefoils very perceptibly wider than between second and third.* Lower period of last colon and cinquefoil near shield. Last colon in regular position. Top leaf of branch points nearly at centre of third cinquefoil. Leaves distant from first colon. Letters in INDE, widely spaced. Second I, high. 1 and last 7 encroach upon date-line. B, apparently made with an R punch altered.

Combinations $\begin{matrix} 32-4 \\ Z-3 \end{matrix}$ $\begin{matrix} 33-30 \\ Z-3 \end{matrix}$ and $\begin{matrix} 33-31 \\ Z-3 \end{matrix}$ For Obverse 32, see page 11.

Reverse Z, *continued.*

Z-4 First cinquefoil nearer to foot of Liberty than to I. Second and last cinquefoils near colon. *Second, third, and fourth cinquefoils about equidistant.* Last cinquefoil low, nearly touching shield. Upper period of first colon low. First I, doubly cut. Top leaf points at left portion of third cinquefoil. Top of upper leaf about level with the left edge of third cinquefoil. 8 touches line. 1, low. Date-line curved over both 7's.

Combination $\begin{smallmatrix} 33\cdot 21 \\ Z\cdot 4 \end{smallmatrix}$

For Obverse 33, see page 16.

Z-5 First cinquefoil nearer to foot of Liberty than to I. *Spacing between third and fourth cinquefoils wider than between second and third.* Lower period of last colon, and last cinquefoil distant from shield. Branch points nearly at centre of third cinquefoil. Top of branch slightly below the left edge of third cinquefoil. Second leaf to left, near colon. Top of first E, slopes to right. All figures of date touch line.

Break from upright of D to waist. Later break from branch-hand to pole.

Combination $\begin{smallmatrix} 33\cdot 12 \\ Z\cdot 5 \end{smallmatrix}$

For Obverse 33, see page 14.

Z-6 First cinquefoil about equidistant between I and foot of Liberty. Second and last cinquefoils near colons. *Second, third, and fourth cinquefoils about equidistant.* Olive-branch narrow and pointing at centre of third cinquefoil. First I, a trifle low. Second E, low. All figures of date below line.

Combinations $\begin{smallmatrix} 33\cdot 11 \\ Z\cdot 6 \end{smallmatrix}$ and $\begin{smallmatrix} 33\cdot 36 \\ Z\cdot 6 \end{smallmatrix}$

For Obverse 33, see pages 14 and 18.

Z-7 Last cinquefoil high. *Lower period of last colon about half on shield.* Top leaf points to right of second cinquefoil, terminating at a point about opposite the centre of same. First I, low. T and L widely spaced. B, a trifle low.

Combinations $\begin{smallmatrix} 33\cdot 4 \\ Z\cdot 7 \end{smallmatrix}$ $\begin{smallmatrix} 33\cdot 11 \\ Z\cdot 7 \end{smallmatrix}$ and $\begin{smallmatrix} 33\cdot 38 \\ Z\cdot 7 \end{smallmatrix}$

For Obverse 33, see pages 13, 14 and 18.

Z-8 Second and last cinquefoils distant from and opposite upper periods of colons. Olive-branch short and broad, pointing nearly at centre of second cinquefoil. *Top of upper leaf below the lowest portion of second cinquefoil.* Third leaf to left touches lower period of first colon. Bottoms of L and I, close. B, long and extending slightly below the adjacent I. Uprights of I and B parallel. B made with an R punch altered, a long and heavy lower line having been added.

Combination $\begin{smallmatrix} 33\cdot 4 \\ Z\cdot 8 \end{smallmatrix}$

For Obverse 33, see page 13.

Reverse Z, *continued.*

Z-9 Last cinquefoil near colon and touching shield. *Lower period of last colon almost wholly on shield.* Top of upper leaf about level with the right edge of second cinquefoil. Wide spacing between I and N. Bottoms of I and N, about upon the same curve. (Note that in Z-24, the I is low and doubly cut.) Top of B leans to right. 1, 7 and 8 of date, touch line. Date-line curved over last 7.

Break from hair-knot through last portion of legend to milling.

Combinations $\begin{matrix} 33\text{-}2 \\ Z\text{-}9 \end{matrix}$ $\begin{matrix} 33\text{-}32 \\ Z\text{-}9 \end{matrix}$ $\begin{matrix} 33\text{-}41 \\ Z\text{-}9 \end{matrix}$

For Obverse 33, see pages 12, 17 and 19.

Z-10 Second and last cinquefoils distant from and opposite upper periods of colons. Last cinquefoil very near shield. Last colon sloping, the upper period most distant from B. Top leaf points at left edge of third cinquefoil. Top of branch about opposite the highest portion of second cinquefoil. Second leaf to left, opposite colon. *Spacing between third and fourth cinquefoils wider than between the second and third.* Top of first I, slopes to left. Bottoms of I and N about upon the same curve. N, in regular position. I and B, comparatively widely spaced. Top of B, leans to right. 1, high. Last 7, touches line. Line defective over last 7.

Combinations $\begin{matrix} 33\text{-}7 \\ Z\text{-}10 \end{matrix}$ $\begin{matrix} 33\text{-}22 \\ Z\text{-}10 \end{matrix}$ $\begin{matrix} 33\text{-}25 \\ Z\text{-}10 \end{matrix}$ $\begin{matrix} 44 \\ Z\text{-}10 \end{matrix}$

For Obverse 44, see page 24.

Z-11 *Second, third and fourth cinquefoils equidistant.* Second and last cinquefoils distant from colons. Last cinquefoil touches shield. Lower period of last colon clear of shield. Branch points to left of third cinquefoil. Top of upper leaf opposite the centre of second cinquefoil. Second leaf to left points at lower right corner of E. Letters in INDE, equidistant. Lower left corner of second E, very near hand. B, made with an R punch altered. First 7 high; date-line defective above. Last 7, low and below line.

Break from milling to upright of T. Break from globe through last 7.

Combinations $\begin{matrix} 33\text{-}24 \\ Z\text{-}11 \end{matrix}$ $\begin{matrix} 33\text{-}30 \\ Z\text{-}11 \end{matrix}$ $\begin{matrix} 33\text{-}31 \\ Z\text{-}11 \end{matrix}$ $\begin{matrix} 33\text{-}40 \\ Z\text{-}11 \end{matrix}$

Z-12 First cinquefoil nearer to foot of Liberty than to I. *Second, third, and fourth cinquefoils about equidistant.* Last cinquefoil near colon and shield. Lower period of last colon very near, or touching shield. Branch points to left of third cinquefoil. Top of upper leaf about opposite the right edge of second cinquefoil. Branch-hand opposite E and space between D and E. Uprights of I and B, parallel. B, low. All figures of date touch line.

Break from line over first 7 through first cinquefoil to top of first I. Perpendicular break through 8. Break connecting tops of letters ETLIB.

Combination $\begin{matrix} 33\text{-}12 \\ Z\text{-}12 \end{matrix}$

For Obverse 33, see page 14.

Reverse Z, *continued*.

Z-13 Second and last cinquefoils high and opposite upper periods of colons. Spacing between third and fourth cinquefoils a trifle wider than between the second and third. Lower period of last colon clear of shield. Branch points at left portion of third cinquefoil. Top of upper leaf a trifle above the right edge of second cinquefoil. Leaves near colon. Second leaf to left points below colon. Bottom of letters INDE, about upon the same curve. (Note that in Z-20, the D is low.) I, high. Both 7's, below line.

Combinations $\begin{smallmatrix} 33-8 \\ Z-13 \end{smallmatrix}$ $\begin{smallmatrix} 33-16 \\ Z-13 \end{smallmatrix}$ and $\begin{smallmatrix} 33-35 \\ Z-13 \end{smallmatrix}$

For Obverse 33, see pages 13, 15 and 18.

Z-14 First cinquefoil very near or touching Liberty. Second, third, and fourth cinquefoils about equidistant. Second and last cinquefoils distant from colons. Last cinquefoil distant from shield. *Branch-hand opposite and partly above colon, entirely above E.* Second I, doubly cut.

Break from milling passing between colon and second cinquefoil towards branch-hand.

Combination $\begin{smallmatrix} 33-17 \\ Z-14 \end{smallmatrix}$

For Obverse 33, see page 15.

Z-15 *Spacing between second and third cinquefoils very perceptibly wider than between third and fourth.* Branch long, pointing at edge. Top leaf disconnected and between second and third cinquefoils. First I, low, top sloping well to left. Trace of a double cutting below L. IB, low. Lower sash-end opposite I.

Combination $\begin{smallmatrix} 33-6 \\ Z-15 \end{smallmatrix}$

For Obverse 33, see page 13.

Z-16 Second, third and fourth cinquefoils about equidistant. Last cinquefoil near or touching shield. *Top of upper leaf about opposite the left edge of second cinquefoil.* First I, low and widely spaced from N. Bottom of T, below bottom of adjacent L. B, made with an R punch altered, top leaning to right.

Combinations $\begin{smallmatrix} 33-14 \\ Z-16 \end{smallmatrix}$ $\begin{smallmatrix} 33-23 \\ Z-16 \end{smallmatrix}$ and $\begin{smallmatrix} 33-24 \\ Z-16 \end{smallmatrix}$

For Obverse 33, see pages 15 and 16.

Z-17 *Spacing between third and fourth cinquefoils very perceptibly wider than between second and third.* Last cinquefoil touches shield. Lower period of last colon near shield. Branch points at left portion of third cinquefoil. Top of upper leaf slightly above the right edge of second cinquefoil. Second leaf to left from top near the second cinquefoil. Wide spacing between E and T. Bottoms of L and I, close. Date-line defective over both sevens.

Heavy break from first E diagonally across the lower portion of Liberty, terminating at right of last seven.

Combination $\begin{smallmatrix} 33-12 \\ Z-17 \end{smallmatrix}$

For Obverse 33, see page 14.

Reverse Z, *continued.*

Z-18 First cinquefoil low and nearer to foot of Liberty than to I. *Spacing between second and third cinquefoils wider than between third and fourth.* Last cinquefoil near shield. *Lower period of last colon partly on shield.* Branch points at left portion of third cinquefoil. Top of branch about opposite a point midway between second and third cinquefoils. Second leaf to left long and pointing at colon. Branch-hand opposite E. Date-line curved over 1 and both 7's.

Combination $\begin{smallmatrix} 33-15 \\ Z-18 \end{smallmatrix}$

For Obverse 33, see page 15.

Z-19 First cinquefoil high and about equidistant between foot of Liberty and I. *Second, third and fourth cinquefoils about equally spaced.* Last cinquefoil and colon distant from shield. Branch points at left edge of third cinquefoil. Top of upper leaf slightly above the right edge of second cinquefoil. Second leaf to left near colon. Top of first E, high and leaning to right. Lower left corner of second E, distant from hand. Branch-hand, opposite E.

Combinations $\begin{smallmatrix} 33-8 \\ Z-19 \end{smallmatrix}$ and $\begin{smallmatrix} 33-16 \\ Z-19 \end{smallmatrix}$

For Obverse 33, see pages 13 and 15.

Z-20 First cinquefoil high. *Second, third and fourth cinquefoils about equally spaced.* Last cinquefoil and colon distant from shield. Branch points to left of third cinquefoil. The top of upper leaf about opposite the centre of second cinquefoil. Second leaf to left points at lower right corner of E. Branch-hand opposite space between D and E. *D low.* Top of first E, leans to right. Last 7, low.

Heavy break from milling over last cinquefoil, extending later to upper portion of B. Circular break from date through foot of Liberty and first cinquefoil, terminating above first I.

Combinations $\begin{smallmatrix} 33-24 \\ Z-20 \end{smallmatrix}$ $\begin{smallmatrix} 33-34 \\ Z-20 \end{smallmatrix}$

For Obverse 33, see pages 16 and 18.

Z-21 First cinquefoil high. *Second, third and fourth cinquefoils about equidistant and widely spaced.* Lower period of last colon very near shield. Branch long, pointing at centre of third cinquefoil. Top of upper leaf slightly below the left edge of third cinquefoil. Branch-hand opposite right portion of E, and space between E and colon. Top of N, above top of ^{adjacent} adjoining D. N, struck with an altered punch, showing portions of another letter, probably an O. All figures of date encroach upon date-line.

Breaks from lower right corner of shield through last cinquefoil to milling.

Combinations $\begin{smallmatrix} 33-12 \\ Z-21 \end{smallmatrix}$ $\begin{smallmatrix} 33-14 \\ Z-21 \end{smallmatrix}$

For Obverse 33, see pages 14 and 15.

Reverse Z, *concluded*.

Z-22 First cinquefoil high and nearer to foot of Liberty than to I. *Spacing between second and third cinquefoils very perceptibly wider than between third and fourth.* Last cinquefoil very near or touching upper period of colon. Branch short and pointing at edge between second and third cinquefoils. Top of upper leaf about opposite the right edge of second cinquefoil. Branch-hand opposite E. N, struck with the same altered punch as in Z-21.

Heavy break near milling to right of fourth cinquefoil.

Combination 33-12
Z-22

For Obverse 33, see page 14.

Z-23 *Second, third and fourth cinquefoils about equidistant.* Top of upper leaf slightly below the right edge of second cinquefoil. Top leaf disconnected and pointing at centre of third cinquefoil. Branch-hand opposite space between D and E. B, low.

Break from milling touching lower right corner of L.

Combination 33-36
Z-23

For Obverse 33, see page 18.

Z-24 Top of branch opposite a point about midway between the second and third cinquefoils. *Lower period of last colon entirely upon shield.* First I, low and doubly cut. B, made with an R punch altered. Right lower corner of both E's long.
